

July 23rd, 2018

Tony Furr
FEMA EM Program Specialist – Regional Debris SME
Federal Emergency Management Agency Region 6
800 N Loop 288
Denton, TX 76209

Dear Mr. Furr,

DRCA's leadership team wanted to thank you for the opportunity to participate in the FEMA Region 6 Debris Summit hosted at your offices in Denton, TX, on July 19th, 2018.

As we communicated to Regional Administrator Tony Robinson, the opportunity to bring the key government stakeholders together from FEMA, USACE, the State of Louisiana and the State of Texas, along with some of the contractors who played a substantive role in last year's hurricane season was invaluable.

Thanks to your ability to moderate the discussion in a very skilled manner, this meeting provided the group with the opportunity to identify important lessons learned and discuss some best practices which may be utilized in future disaster recovery efforts at the Federal, state and local levels of government.

DRCA looks forward to working closely with you and your colleagues on the important issues and challenges which were identified as priorities by those in attendance.

DRCA is very appreciative of all the time and hard work you dedicated to make this meeting a huge success. In our view, the Debris Summit was very productive because it allowed key stakeholders the opportunity to problem-solve and open public-private sector lines of communication.

In closing, it was truly a pleasure working with you and we look forward to next year's Debris Summit!

Sincerely,

A handwritten signature in black ink, appearing to read "Casey Long", written in a cursive style.
